A plastic-free University

The University of Verona has joined the **#StopSingleUsePlastic** campaign

Electric blue metal water bottles (75 ml) are being made available at a reduced price to all students!

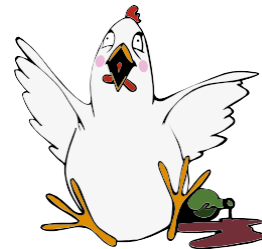

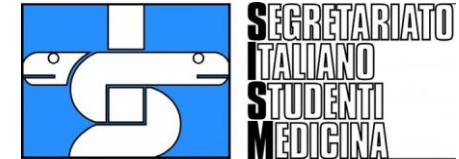

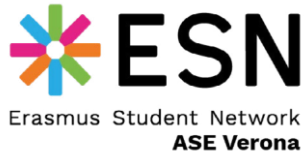

- it has a **larger capacity** than average plastic bottles
- **it's more sustainable:** in Italy, 11.5 billion plastic bottles end up in landfills each year. **Let's change that!**

Student associations

The University of Verona is home to a number of **Student Associations**, offering a wide range of activities, from journalism to radio broadcasting, from the University's choir to international networking activities, and so much more!
