Docente proponente: prof.ssa Annalisa Ciampi

OGGETTO DI STUDIO

In global society, long-standing conflicts (such as the Middle East question and ethnic-religious wars) coexist with new forms of conflict generated by the so-called global challenges: terrorism, immigration, the environment, technological power, and more recently the Russian-Ukrainian war.

The course educates on the culture of negotiation and mediation by addressing the following topics:

- The role of negotiations and mediation in the resolution of international disputes
- Role and types of international diplomacy, including cultural diplomacy, digital diplomacy and sport diplomacy
- Lessons learned from the centrality of mediation and negotiated solutions in the international legal system, for the resolution of interpersonal conflicts.

OBIETTIVO/I DI APPRENDIMENTO ATTESI

Conoscenze

The different types of conflicts
The role of culture and the costs of conflicts
The value of negotiated solutions.

Competenze

To recognize the existence and reasons of international conflicts
To understand the conditions conducive to successful resolution of international disputes
To take part in the art of diplomacy
